## Art of Élan Innovative One-Hour Concert Format Presented in North County

Art of Élan @ Lux Art Institute  
Wednesday, February 3, 7 pm  
Reception Prior to Concert at 6 pm

This February, **Art of Élan** continues to push the boundaries of classical music by bringing its exciting and innovative one-hour concerts to North County audiences, specifically to the **Lux Art Institute** in Encinitas. The critically acclaimed organization returns to North County for the 5th time.

Art of Élan's regular season concerts have been performed at The San Diego Museum of Art for the past nine years. This concert at Lux, presented in addition to the regular concert series at the Museum, continues Art of Élan's commitment to bring classical music directly to new audiences. Previous concerts have also been held at The Glashaus in Barrio Logan and Luce Loft in East Village, successfully attracting diverse crowds.

Art of Élan @ Lux Art Set for  
February 3

The concert will be paired with an opportunity to view the works of resident artist **Sophia Narrett**, including a meet-and-greet with the artist and a special pre-concert reception with the musicians. The colorful program is inspired by the concept of "honest fantasy," which Narrett has used to describe her own creative process. Including works by **Dmitry Shostakovich**, **Missy Mazzoli** and provocative young composer **Nico Muhly**, this program explores the worlds of fantasy and reality through the intersection of art and music.

**6:00pm:** Pre-concert reception of light refreshments, wine and beer

**7:00pm:** Art of Élan performance
